

# Day of LOVE

*The difference is in the experience!*

## **Go Green For Your Wedding!**

It seems these days more and more people are realizing that every day we can make a difference to help out mother nature. Why should your wedding day be any different? We would love to give you some tips to put a little green in your big day, and your everyday. Here's a few just to show you how easy it is to be an eco-chic bride.

\*Use recycled paper for your invitations, or just less paper. You don't need all those extra pieces to make a statement! Check out [www.foreverfiances.com](http://www.foreverfiances.com) or [www.minted.com](http://www.minted.com) for some really eco-fun ideas.

\*Make a statement with your wedding bands. These days it's so easy to make a statement with your wedding rings, try recycling gold or choosing man made diamonds. If you're really into this idea go to [www.greenkarat.com](http://www.greenkarat.com) they are making a difference one ring at a time.

\*Want a great website to get more tips for putting a little green into your everyday life? Try [www.freshandgreen.com](http://www.freshandgreen.com)

\*Eco-friendly search engine? That's right, according to [www.blackle.com](http://www.blackle.com). Blackle saves energy because the screen is predominantly black, a monitor requires more power to display a white (or light) screen than a black (or dark) screen.

These are just a few ideas to get you into the eco-chic mindset, please feel free to ask us for more tips on how you can make a difference on your big day!
